INDEPENDENT AUDITOR'S REPORT

To the President and Board of Trustees Northlake Public Library District Northlake, Illinois

Opinions

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Northlake Public Library District (the "District") as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Northlake Public Library District, as of June 30, 2024, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or
 error, and design and perform audit procedures responsive to those risks. Such procedures include
 examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are
 appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of
 the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and other required supplementary information listed in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Distrct's basic financial statements. The combining and individual fund financial statements and schedules and supplemental data are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual fund financial statements is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole. The supplemental data has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Management's Discussion and Analysis
June 30, 2024

As management of the Northlake Public Library District (District), we offer readers of the District's statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2024. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in the District's Financial Statements beginning on page 3.

FINANCIAL HIGHLIGHTS

- The District's total net position increased from \$8,369,197 to \$9,795,787, an increase of \$1,426,590 or 17.05%. Of this amount, \$3,015,608 (unrestricted net position) may be used to meet the District's ongoing obligations to citizens and creditors.
- The increase in net position of \$1,426,590 was a result of government-wide revenues totaling \$3,732,178 and government-wide expenses totaling \$2,305,588.
- At June 30, 2023, the District's governmental funds reported combined ending fund balances of \$3,471,219, an increase of \$443,930 in comparison with the prior year.

Using the Financial Section of this Annual Report

The focus of the financial statements is on both the District as a whole (government-wide) and on the major individual funds. Both perspectives (government-wide and fund) allow the user to address relevant questions, broaden a basis for comparison (year to year or government to government) and enhance the District's accountability.

Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business. The focus of the Statement of Net Position presents information on all of the District's assets and liabilities and deferred inflows, with the difference reported as net position. This statement combines and consolidates governmental fund's current financial resources (short-term spendable resources) with capital assets and long-term obligations using the accrual basis of accounting and economic resources measurement focus. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The Statement of Activities presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., earned but unused compensated absences).

Management's Discussion and Analysis June 30, 2024

The government-wide financial statements (see pages 3 - 4) describe functions of the District that are principally supported by taxes and charges for services revenues.

Fund Financial Statements

Traditional users of governmental financial statements will find the Fund Financial Statements to be more familiar. The focus of the presentation is on major funds rather than fund types. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District are in one category, governmental funds, with the exception of one fiduciary fund which reports an FSA Reimbursement Fund.

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The Library maintains ten individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, Debt Service Fund, and Special Reserve Fund, all of which are considered major funds. Data from the other seven governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

The District adopts an annual budget for its all of its funds. A budgetary comparison schedule has been provided elsewhere in this report to demonstrate compliance with the budget. The fund financial statements are on pages 5 through 10 of this report. Combining non-major governmental fund financial statements can be found on pages 36 and 37.

Management's Discussion and Analysis
June 30, 2024

Notes to Financial Statements

The notes provide additional information that is essential to a full understanding of the information provided in the government-wide and fund financial statements. The notes to financial statements can be found on pages 11 through 30 of this report.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the District's retiree benefit plan, the Illinois Municipal Retirement Fund, employee pension obligations and budgetary comparison schedules for the General Fund. This information can be found on pages 31 through 34 of this report.

Budgetary comparison schedules for the District's other budgeted major fund, the Debt Service Fund, can be found on page 35 as a part of supplementary information.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the District, assets/deferred outflows exceeded liabilities/deferred inflows by \$9,795,787 at June 30, 2024.

Management's Discussion and Analysis June 30, 2024

	Governmental Activities					
		FY 2024		FY 2023		
Current Assets Capital Assets	\$	5,811,880 6,708,977	\$	5,309,559 6,460,200		
Total Assets		12,520,857		11,769,759		
Deferred Outflows of Resources		417,620		551,825		
Total Assets and Deferred Outflows of Resources		12,938,477		12,321,584		
Current Liabilities Noncurrent Liabilities	_	851,906 541,802		934,458 1,531,441		
Total Liabilities		1,393,708		2,465,899		
Deferred Inflows of Resources		1,748,982		1,486,488		
Total Liabilities and Deferred Inflows of Resources		3,142,690		3,952,387		
Net Position Net Investment in Capital Assets Restricted Unrestricted		5,914,172 866,007 3,015,608		5,020,739 806,748 2,541,710		
Total Net Position		9,795,787		8,369,197		
Total Liabilities, Deferred Inflows of Resources, and Net Position	\$	12,938,477	\$	12,321,584		

A portion of the District's net position, \$5,914,172, reflects investment in capital assets (e.g., land, buildings, vehicles and equipment, and leased equipment); less any related debt used to acquire those assets that is still outstanding. The District uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Additionally, \$866,007 of the District's net position represents resources that are subject to external restrictions on how they may be used. The remaining \$3,015,608 represents unrestricted net position that may be used to meet the District's ongoing obligations to citizens and creditors.

Management's Discussion and Analysis June 30, 2024

The District's net position increased by \$1,426,590 during the year ended June 30, 2024.

Northlake Public Library District's Change in Net Position

	Governmental Activities						
	FY 2024			FY 2023			
Revenues		_		_			
Program Revenues							
Charges for Services	\$	45,097	\$	40,772			
Grants and Contributions		360,778		213,298			
General Revenues							
Property Taxes		3,056,360		2,865,018			
Replacement Taxes		130,247		197,743			
Interest		138,412		63,506			
Miscellaneous		1,284		4,808			
Total Revenues		3,732,178		3,385,145			
Expenses							
Culture and Recreation		2,307,508		2,230,070			
Interest		(1,920)		20,660			
Total Expenses		2,305,588		2,250,730			
Increase in Net Position		1,426,590		1,134,415			
Net Position-Beginning		8,369,197		7,234,782			
Net Position-Ending	\$	9,795,787	\$	8,369,197			

As shown above, revenues of \$3,732,178 exceeded expenses of \$2,305,588, resulting in the net position increase of \$1,426,590.

FINANCIAL OVERVIEW

Total revenues increased \$347,033 or 10.25%. Property taxes increased \$191,342 or 6.68% from \$2,865,018 to \$3,056,360. Grants and contributions increased \$147,480 or 69.14% from \$213,298 to \$360,778.

Total expenses increased \$54,858 or 2.44%. Functional expenses for culture and recreation increased \$77,438 or 3.47%. Interest expense decreased \$22,580 or 109.29%.

Management's Discussion and Analysis
June 30, 2024

Governmental Funds

The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unrestricted, unassigned fund balance may serve as a useful measure of the District's net resources available for spending at the end of the fiscal year.

At June 30, 2024, the District's governmental funds reported combined ending fund balances of \$3,975,958, which is an increase of \$504,739 or 14.54% from the prior year.

The General Fund is the chief operating fund of the District. At June 30, 2024, unassigned fund balance of the General Fund was \$2,358,445. The fund balance of the General Fund decreased by \$42,436 or 1.77% during the year ended June 30, 2024.

GENERAL FUND BUDGETARY HIGHLIGHTS

During the fiscal year ended June 30, 2024, there were no revisions to the budget of the General Fund. Significant differences between the final budget and the actual revenues and expenditures are summarized as follows:

- The difference between the estimated revenues and the actual revenues was \$280,433 (favorable).
- The difference between the estimated expenditures and the actual expenditures was \$1880,980 (favorable).

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets – The District's investment in capital assets for its governmental activities as of June 30, 2024 amount to \$6,708,977 (net of accumulated depreciation/amortization). This investment in capital assets includes land, buildings, and furniture, fixtures, and equipment, and leased equipment.

The total increase in the District's investment in capital assets for the year ended June 30, 2024 was \$248,777.

Management's Discussion and Analysis
June 30, 2024

	Governmental Actvities							
	6	/30/2024	6	/30/2023				
Land	\$	349,077	\$	349,077				
Construction in Progress		6,375		219,735				
Building and Improvements		5,927,053		5,514,317				
Library Materials		269,644		252,690				
Furniture, Fixtures, and Equipment		90,276		124,381				
Leased Equipment		66,552						
Total	\$	6,708,977	\$	6,460,200				

Net capital asset additions during the year amounted to \$619,345. Depreciation expense was exceeded by new additions in the amount of \$468,512.

Additional information on the District's capital assets can be found in Note 5 on page 20 of this report.

Long-Term Debt – At June 30, 2024, the District had outstanding debt of \$682,768. The net decrease in long-term debt was \$607,426.

	Balance 6/30/2023 Additions Reductions				Balance 6/30/2024		
General Obligation Bonds	\$	1,365,000	\$	-	\$ 675,000	\$	690,000
Copier Lease		-		75,342	 7,768		67,574
	\$	1,365,000	\$	75,342	\$ 682,768	\$	757,574

Additional information on the District's long-term debt can be found in Note 6 on pages 21 - 22 of this report.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The District is faced with a similar economic environment as many of the other library districts are faced with. The District's elected and appointed officials considered many factors when setting the fiscal year 2025 budget, including anticipated costs for services, economy, and tax rates. The equalized assessed valuation (EAV) for the District for the 2023 tax year was \$852,633,223, which was an increase of \$98,793,686 over the 2022 tax year.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the District's finances for all those with an interest in the District's finances. Questions concerning any of the information provided in this report or request for additional financial information should be addressed to the Board of Trustees, Northlake Public Library District, 231 N. Wolf Rd., Northlake, IL 60164.

NORTHLAKE PUBLIC LIBRARY DISTRICT RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES TO THE GOVERNMENTAL ACTIVITIES IN THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED JUNE 30, 2024

Net change in fund balances - total governmental funds	\$ 504,739
Amounts reported for governmental activities in the statement of activities are different because:	
Governmental funds report capital outlay as expenditures, however, they are capitalized and depreciated/amortized in the statement of activities	701,517
The repayment of long-term debt is reported as an expenditure when due in governmental funds but as a reduction of principal outstanding in the statement of activities	682,768
The premium on the issuance of long-term debt is capitalized and amortized in the statement of activities	37,230
The decrease in long-term liabilities for compensated absences is reported as an expenditure when due in governmental funds but as a increase of liabilities in the statement of activities	5,179
The change in the net pension asset/liability is reported as an expense on the statement of activities	274,703
The change in the deferred outflows and inflows related to pensions is reported as an expense on the statement of activities	(136,756)
The decrease in accrued interest is reported as an expenditure when due in governmental funds but as a increase of liabilities in the statement of activities	3,428
Lease proceeds are reported in the governmental funds as other financing sources, but are reported as a liability in the statement of net position	(75,342)
The change in deferred inflows related to grants is reported as a revenue on the statement of activities	(118,136)
Some expenses in the statement of activities (e.g., depreciation) do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.	(452,740)

Notes to Financial Statements June 30, 2024

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Northlake Public Library District, Illinois (District) primarily serves the Village of Northlake in Cook County, Illinois, with the library located in Northlake.

The financial statements of the Northlake Public Library District (the District) have been prepared in conformity with accounting principles generally accepted in the United States of America, as applied to government units (hereinafter referred to as generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

Reporting Entity

The District is a body corporate and politic established under Illinois Compiled Statutes (ILCS) governed by an elected Board of Trustees. These financial statements present the District's reporting entity as required by generally accepted accounting principles. The District is considered to be a primary government since the board is separately elected and the District is fiscally independent.

Based on the criteria of GASB Statement No 61, The Financial Reporting Entity: Omnibus - an amendment of GASB Statements No. 14 and No. 34, the District does not have any component units.

Fund Accounting

The District uses funds to report on its financial position and the changes in its financial position. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities. A fund is a separate accounting entity with a self-balancing set of accounts.

Funds are classified into the following categories: governmental, proprietary and fiduciary. The District reports governmental funds and a single fiduciary fund.

Governmental funds are used to account for all or most of the District's general activities, including the collection and disbursement of restricted, committed, or assigned funds (special revenue funds), the funds restricted, committed, or assigned for the acquisition or construction of capital assets (capital projects funds), the funds restricted, committed, or assigned for the servicing of general long-term debt (debt service funds) and management of funds held in trust that can be used for library services (working cash – a special revenue fund). The general fund is used to account for all activities of the District not accounted for in some other fund.

Notes to Financial Statements June 30, 2024

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statements of net position and the statement of activities) report information on all of the activities of the District. The effect of material interfund activity has been eliminated from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, if any, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function, segment or program are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

The District reports the following major governmental funds:

General Fund – This is the District's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

Debt Service Fund – This fund is used to record property taxes received and principal and interest payments disbursed in relation to the District's bonds payable.

Special Reserve Fund – This fund is used to report costs of capital or a non-recurring nature as the Board designates. Funding is generally from excess fund transfers from the General Fund.

Notes to Financial Statements June 30, 2024

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred. Property taxes are recognized as revenues in the year for which they are levied (i.e., intended to finance). Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. The District recognizes property taxes when they become both measurable and available in accordance with GASB Codification Section P70. All other revenues are considered to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a fund liability is incurred. However, debt service expenditures are recorded only when payment is due.

Property taxes, interest revenue, and charges for services are all considered to be susceptible to accrual and recognized as revenues of the current fiscal period. All other revenues are not susceptible to accrual because generally they are not measurable until received in cash.

The District reports unavailable/deferred revenue and unearned revenue on its financial statements. Unearned/deferred revenues arise when a potential revenue does not meet both the measurable and available or year intended to finance criteria for recognition in the current period. Unearned revenues also arise when resources are received by the government before it has a legal claim to them as when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when both the revenue recognition criteria are met, or when the government has a legal claim to the resources, the unavailable/unearned/deferred revenue is removed from the financial statements and revenue is recognized.

Budgets

Budgets are adopted on a basis consistent with generally accepted accounting principles. Annual appropriated budgets are adopted for the general, debt service, and all special revenue funds (except Working Cash). All annual appropriations lapse at fiscal year-end.

Notes to Financial Statements June 30, 2024

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Prepaid Item/Expenses

The cost of governmental fund-type prepaids are recorded as expenditures when consumed rather than when purchased. Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaids in both the government-wide and fund financial statements.

Cash and Investments

For purpose of the Statement of Net Position, the District's cash and cash equivalents are considered to be cash on hand, demand deposits, and cash with fiscal agent.

Investments are generally reported at fair value. Short-term investments are reported at cost, which approximates fair value. For investments, the District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. All of the District's investments are in 2a7-like investment pools that are measured at the net asset value per share determined by the pool.

Compensated Absences

The District accrues accumulated unpaid vacation and associated employee-related costs when earned (or estimated to be earned) by the employee. In accordance with GASB Statement No. 16, no liability is recorded for nonvesting accumulation rights to receive sick pay benefits. However, a liability is recognized for that portion of accumulated sick leave that is estimated to be taken as "terminal leave" prior to retirement. All vacation pay is accrued when incurred in the government-wide financial statements. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

Notes to Financial Statements June 30, 2024

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Capital Assets

Capital assets which include land, land improvements, buildings, vehicles and furniture and equipment are reported in the government-wide statement of net assets. Capital assets are defined as assets with an estimated useful life of greater than one year. The District has established a minimum threshold of \$2,500 for capitalization purposes. Additions or improvements that significantly extend the useful life of an asset, or that significantly increase the capacity of an asset are capitalized. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation. Expenditures for asset acquisitions and improvements are stated as capital outlay expenditures in the governmental funds.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend the assets' lives are not capitalized.

Depreciation of capital assets is recorded in the Statement of Activities with accumulated depreciation reflected in the Statement of Net Assets and is provided on the straight-line basis over the following estimated useful lives:

Land Improvements20 yearsBuildings20-40 yearsVehicles, Furniture & Equipment4-10 years

Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities. Bond premiums and discounts are deferred and amortized over the life of the bonds. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are expensed as incurred.

In the fund financial statements, governmental funds recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld form the actual debt proceeds received, are reported as expenditures.

Notes to Financial Statements June 30, 2024

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Deferred Outflows/Inflows of Resources

Deferred outflow/inflow of resources represents an acquisition/reduction of net position that applies to a future period and therefore will not be recognized as an outflow of resources(expense)/inflow of resources (revenue) until that future time.

Interfund Transactions

Interfund activity is reported as loans, services provided, reimbursements or transfers. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers.

Fund Balances/Net Position

In the fund financial statements, governmental funds report nonspendable fund balance for amounts that are either not in spendable form or legally or contractually required to be maintained intact. Restrictions of fund balance are reported for amounts constrained by legal restrictions from outside parties for use for a specific purpose, or externally imposed by outside entities. Committed fund balance is constrained by formal actions of the District's Board, which is considered the District's highest level of decision making authority. Formal actions include ordinances approved by the Board. Assigned fund balance represents amounts constrained by the District's intent to use them for a specific purpose. The authority to assign fund balance has been delegated to the District's director. Any residual fund balance of the General Fund is reported as unassigned. Deficit fund balances in any other governmental funds are also reported as unassigned.

The District's flow of funds assumption prescribes that the funds with the highest level of constraint are expended first. If restricted or unrestricted funds are available for spending, the restricted funds are spent first. Additionally, if different levels of unrestricted funds are available for spending, the District considers committed funds to be expended first followed by assigned and then unassigned.

The various Special Revenue Funds supported by property taxes are restricted due to the restricted revenue streams of the fund balance. These funds also target no less than three months of operating expenditures be included in fund balance for fiscal sustainability. Other funds are restricted due to the nature of the contributions to the fund.

Notes to Financial Statements June 30, 2024

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fund Balances/Net Position (Continued)

In the government-wide financial statements, restricted net positions are legally restricted by outside parties for a specific purpose. None of the net position is restricted as a result of enabling legislation adopted by the District. Net investment in capital assets is the book value of the capital assets less outstanding principal balances of debt issued to construct or acquire the capital assets.

Accounting Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditure/expenses during the reporting period. Actual results could differ from those estimates.

NOTE 2 - LEGAL COMPLIANCE AND ACCOUNTABILITY

Budgets

Budgets are adopted on a modified accrual basis, a basis consistent with accounting principles generally accepted in the United States of America. Annual appropriated budgets are adopted (at the fund level) for all funds. All annual appropriations lapse at fiscal year end.

All departments of the District submit requests for appropriations to the Library Director so that a budget may be prepared.

The budget is prepared by fund, function, and activity, and includes information on the past year, current year estimates, and requested appropriations for the next fiscal year.

The proposed budget is presented to the governing body for review. The governing body holds public hearings and may add to, subtract from, or change appropriations, but may not change the form of the budget.

The Library Director is authorized to transfer budgeted amounts between departments within any fund; however, any revisions that alter the total expenditures of any fund must be approved by the board.

Expenditures may not legally exceed budgeted appropriations at the fund level. During the year no supplementary appropriations were necessary.

Notes to Financial Statements June 30, 2024

NOTE 3 - DEPOSITS AND INVESTMENTS

The District maintains a cash and investment pool that is available for use by all funds. Each fund type's portion of this pool is displayed on the combined balance sheet as "cash and investments." In addition, deposits and investments are separately held by several of the District's funds.

Permitted Deposits and Investments – Statutes authorize the District to make deposits/invest in insured commercial banks, savings and loan institutions, obligations of the U.S. Treasury and U.S. Agencies, obligations of States and their political subdivisions, insured credit union shares, repurchase agreements, commercial paper rated within the three highest classifications by at least two standard rating services, and Illinois Funds.

The Illinois Public Treasurers' Investment Pool, known as The Illinois Funds, operates as a qualified external investment pool in accordance with the criteria established in GASB Statement No. 79, Certain External Investment Pools and Pool Participants, and thus, reports all investments at amortized cost rather than fair value. The investment in The Illinois Funds by participants is also reported at amortized cost. The Illinois Funds does not have any limitations or restrictions on participant withdrawals. The Illinois Treasurer's Office issues a separate financial report for The Illinois Funds which may be obtained by contacting the Administrative Office at Marine Bank Building, 1 Eat Old State Capitol Plaza, Springfield, Illinois 62701-1320.

IIIT is a trust organized under the laws of the state of Illinois. IIIT invests all of its assets in a US Government Money Market Portfolio, a money market mutual fund. IIIT has a AAAm Standard & Poor's credit qualifying rating.

It is the policy of the District to invest its funds in a manner which will provide the highest investment return with the maximum security while meeting the daily cash flow demands of the District and conforming to all state and local statutes governing the investment of public funds, using the "prudent person" standard for managing the overall portfolio.

Deposits with Financial Institutions

Custodial credit risk for deposits with financial institutions is the risk that in the event of bank failure, the District's deposits may not be returned to it. To guard against credit risk for deposits with financial institutions, the District's investment policy requires that deposits with financial institutions in excess of FDIC be collateralized with collateral of at least 110% of the deposits at institution held by an independent third party in the name of the District.

At June 30, 2024, the carrying amount of the District's deposits totaled \$2,919,353, and the bank balances totaled \$2,895,975. Additionally, at year-end, the District has \$534,113 invested in the Illinois Funds and \$412,509 held in the Illinois Institutional Investors Trust (IIIT).

Notes to Financial Statements June 30, 2024

NOTE 3 - DEPOSITS AND INVESTMENTS (Continued)

Investments

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to the investment, the District will not be able to recover the value of its investments that are in the possession of an outside party. To limit its exposure, the District's investment policy requires that deposit with financial institutions in excess of FDIC be collateralized with collateral held by an independent third party in the name of the District. At year-end, the entire amount of the bank balance of the deposits was covered by federal depository or equivalent insurance. The Illinois Funds is not subject to custodial credit risk.

Interest rate risk is the risk that change in interest rates will adversely affect the fair value of an investment. In accordance with its investment policy, the District limits its exposure to interest rate risk by investing in primarily short-term securities, money market mutual funds, or similar investment pools and limiting the average maturity of the portfolio. However, investment purchases mirror daily cash flow needs. Consequently, there is no limit attached to the maturity dates of the investment purchases as a means of managing the District's exposure to fair value losses arising from increasing interest rates.

Credit risk is the risk that the issuer of a debt security will not pay its par value upon maturity. The District's investment policy does not mitigate credit risk. At year-end, the District's investments in the Illinois Funds were rated AAAmmf by Fitch.

Concentration of credit risk is the risk that the District has a high percentage of its investments invested in one type of investment. The District's investment policy does not mitigate concentration of credit risk. However, at year-end, the District does not have any investments over 5 percent of the total cash and investment portfolio (other than investments issued or explicitly guaranteed by the U.S. government and investments in mutual funds, external investment pools, and other pooled investments).

Notes to Financial Statements June 30, 2024

NOTE 4 - RECEIVABLES - TAXES

Property taxes for 2023 attach as an enforceable lien on January 1, 2024, on property values assessed as of the same date. Taxes are levied by December 31 of the subsequent fiscal year (by passage of a Tax Levy Ordinance). Tax bills are prepared by the Counties and issued on or about March 1, 2023, and are payable in two installments, on or about February 1, 2024 and July 1, 2024. The Counties collect such taxes and remit them periodically. The second installment of the 2023 property tax levy is recorded as receivable at June 30, 2024. The second installment will be used for Fiscal Year 2025 operations and is reflected as deferred inflow of resources at June 30, 2024.

NOTE 5 - CAPITAL ASSETS

A summary of changes in capital assets for governmental activities of the District is as follows:

	Beginning Balances	Increases	Decreases	Ending Balances

GOVERNMENTAL ACTIVITIES

Culture and recreation

\$ 452,740

Notes to Financial Statements June 30, 2024

NOTE 6 - LONG-TERM DEBT

General Obligation Bonds

The District issued general obligation refunding bonds to advance refund a portion of the outstanding GO Bonds, Series 2005. The bonds have a maturity date of December 1, 2024 and are payable December 1, 2016 through 2024. The interest rates on the outstanding bonds are variable from 2.0% to 3.5%.

Annual debt service requirements to maturity on general obligation bonds are as follows:

		Go Refunding Bonds,				
Fiscal Year	Series 2014					
Ending June 30	Р	rincipal	lr	nterest		
2025	\$ 690,000		\$	12,075		
TOTALS	\$	690,000	\$	12,075		

Lease

In December 2023, the Library entered into a new lease agreement with Macquarie Equipment Capital, Inc. for nine copying machines. Under the lease agreement, the Library pays \$1,438 per month for 60 months (ending in November 2028). The lease liability is measured at a discount rate of 5.47%. As a result of the lease, the Library has recorded an intangible right-to-use lease asset amounting to \$75,342, with an accumulated amortization of \$8,790 as of June 30, 2024. The future minimum lease obligations and the net present value of these minimum lease payments as of June 30, 2024, were as follows:

Fiscal Year	Copier Lease				
Ending June 30	Principal		In	terest	
2025	\$	13,906	\$	3,350	
2026		14,686		2,570	
2027		15,509		1,747	
2028		16,379		877	
2029		7,094		97	
TOTALS	\$	67,574	\$	8,641	

Changes in Long-Term Liabilities

Payments on the general obligation bonds are made by the Debt Service Fund, the net pension liability is liquidated by the IMRF Fund, and the lease, compensated absences, and other debt are generally liquidated by the General Fund. Changes in long-term liabilities during the fiscal year were as follows:

Legal debt margin	\$ 23,823,205

Legal Debt Limit

Chapter 50, Section 405/1 of the Illinois Compiled Statues provides: "no township, school district or other municipal corporation having a population of less than 300,000 shall become indebted in any manner or for any purpose, to an amount, including existing indebtedness in the aggregate exceeding 2.875% on the value of the taxable property therein, to be ascertained by the last assessment for state and county purposes, previous to the incurring of the indebtedness or, until January 1, 1983, if greater, the sum that is produced by multiplying such governmental unit's 1978 equalized assessed valuation by the debt limitation percentage in effect on January 1, 1979."

The limitation prescribed shall not apply to any indebtedness of any library district incurred for acquiring or improving sites, constructing, extending or improving and equipping sites for public library purposes or for the establishment, support and maintenance of a public library, under the provisions of "The Illinois Public Library District Act."

Notes to Financial Statements June 30, 2024

NOTE 7 - RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. As such, the District carries commercial insurance for all risks of loss with the exception of unemployment insurance which is covered by Library Insurance Management and Risk Control Combination (LIMRiCC). Settled claims resulting from these risks have historically not exceeded insurance coverage in the past three years and there have been no significant reductions in coverage. The District participates in a public entity risk pool for unemployment insurance coverage. The District is responsible for quarterly payments and the pool is responsible for administering the program. If funds in the program are insufficient in the judgment of the pool, then the pool may assess the member's additional equal payments.

NOTE 8 - DEFICIT FUND BALANCES

As of June 30, 2024, the Unemployment Compensation Fund had a deficit fund balance of \$269.

NOTE 9 - INDIVIDUAL FUND DISCLOSURES

Interfund loans are classified as Interfund Receivables/Payables. As of June 30, 2024, the Unemployment Compensation Fund owed the General Fund \$269. This was to eliminate the negative cash balance within the Unemployment Compensation Fund.

During the year, the General Fund transferred \$500,000 to the Special Reserve Fund in order to meet future capital cost projections.

NOTE 10 - CONTINGENT LIABILITIES

Grants

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures, which may be disallowed by the grantor cannot be determined at this time. The District does not expect to have any such liability and if any were to arise it would be immaterial.

Notes to Financial Statements June 30, 2024

NOTE 11 - DEFINED BENEFIT PENSION PLAN

The District contributes to a defined benefit pension plan: the Illinois Municipal Retirement Fund (IMRF), an agent multiple-employer public employee retirement system. The benefits, benefit levels, employee contributions, and employer contributions for all plans are governed by Illinois Complied Statutes (ILCS) and can only be amended by the Illinois General Assembly. IMRF's plan does not issue a separate report for the plan. However, IMRF does issue a publicly available report that includes financial statements and supplementary information for the plan as a whole, but not for individual employers. That report can be obtained from IMRF, 2211 York Road, Suite 500, Oak Brook, Illinois 60523.

Illinois Municipal Retirement Fund

Plan Administration

All employees hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members. The plan is accounted for on the economic resources measurement focus and the accrual basis of accounting. Employer and employee contributions are recognized when earned in the year that the contributions are required, benefits and refunds are recognized as an expense and liability when due and payable.

Plan Membership

At December 31, 2023, IMRF membership consisted of:

Retirees and beneficiaries	22
Inactive, non-retired members	15
Active plan members	16
TOTAL	53

IMRF provides two tiers of pension benefits. Employees hired prior to January 1, 2011, are eligible for Tier 1 benefits. For Tier 1 employees, pension benefits vest after eight years of service. Participating members who retire at age 55 (reduced benefits) or after age 60 (full benefits) with eight years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for each year of credited service up to 15 years, and 2% for each year thereafter. The final rate of earnings is the highest total earnings during one consecutive 48 months within the last 10 years of IMRF services divided by 48.

Employees hired on or after January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after 10 years of service. Participating members who retire at age 62 (reduced benefits) or after age 67 (full benefits) with 10 years of credited service are

Notes to Financial Statements June 30, 2024

NOTE 11 - DEFINED BENEFIT PENSION PLAN (Continued)

entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for each year of credited service up to 15 years, and 2% for each year thereafter. The final rate of earnings is the highest total earnings during any consecutive 96 months within the last 10 years of IMRF service, divided by 96.

Contributions

The District employees participating in IMRF are required to contribute 4.5% of their annual eligible covered salary. The member rate is established by state statute. The District is required to contribute at an actuarially determined rate. The employer rate for calendar year 2022 was 10.48% of payroll. The average employer rate for the fiscal year was 8.16%. The District's contribution requirements are established and may be amended by the IMRF Board of Trustees.

Actuarial Assumptions

The District's net pension liability was measured as of December 31, 2022 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation performed as of the same date using the following actuarial methods and assumptions.

Actuarial Valuation Date December 31, 2023

Actuarial Cost Method Entry Age Normal

Assumptions:

Inflation 2.25%

Salary Increases 2.85% to 13.75%

Investment Rate of Return 7.25%

Asset Valuation Method Market Value of Assets

Retirement Age. Experience-based table of rates that are specific to the type of eligibility condition. Last updated for the 2023 valuation pursuant to an experience study of the period 2020-2022.

Mortality Rates. For non-disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Retiree, Male (adjusted 108.0%) and Female (adjusted 106.4%) tables, and future mortality improvements projected using scale MP-2021. For disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Disabled Retiree, Male and Female

Notes to Financial Statements June 30, 2024

NOTE 11 - DEFINED BENEFIT PENSION PLAN (Continued)

(both unadjusted) tables, and future mortality improvements projected using scale MP-2021. For active members, the Pub-2010, Amount-Weighted, below-median income, General, Employee, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2021.

There were no benefit changes during the year.

Discount Rate

The discount rate used to measure the total pension liability was 7.25%. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that the District's contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate.

Based on those assumptions, the IMRF's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Notes to Financial Statements June 30, 2024

NOTE 11 - DEFINED BENEFIT PENSION PLAN (Continued)

For the year ended June 30, 2024, the District recognized pension income of \$68,056. At June 30, 2024, the District reported deferred outflows of resources and deferred inflows of resources related to IMRF from the following sources:

Ou	tflows of	In	eferred flows of esources
\$	113,884 -	\$	1,331 10,837
	264,688		-
<u> </u>		<u> </u>	12.168
	Ou Re	-	Outflows of Resources In Resources \$ 113,884 \$ - - 264,688 39,048

The \$39,048 reported as deferred outflows of resources related to pensions resulting from employer contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the reporting year ending June 30, 2025.

Amounts reported as deferred outflows of resources and deferred inflows of resources related to IMRF will be recognized in pension expense as follows:

Year Ending June	
30	
2025	\$ 77,727
2026	127,872
2027	200,566
2028	(39,761)
2029	-

TOTAL	\$ 366,404

Discount Rate Sensitivity

The following is a sensitivity analysis of the net pension liability to changes in the discount rate. The table below presents the net pension liability of the District calculated using the discount rate of 7.25% as well as what the District's net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (6.25%) or 1 percentage point higher (8.25%) than the current rate:

		(6.25%)		(7.25%)	((8.25%)	
Net pension liability (asset)	\$	1,088,162	\$	449,147	\$	(66,972)	

NOTE 12 - DEFERRED COMPENSATION PLAN

The District offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan, available to all District employees at their option, permits them to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death or unforeseeable emergency. All amounts of compensation deferred under the plan, all property and rights purchased with those amounts, and all income attributable to those amounts, property or rights are held in Trust for the exclusive benefits of all participants and beneficiaries. It is the opinion of the District's legal counsel that the District has no liability for losses under the plan but does have the duty of due care that would be required of an ordinary prudent investor. Investments are managed by the plan's trustee under one of four investment options, or a combination thereof. The choice of the investment option(s) is made by the participants. Since amounts held in Trust are the exclusive benefit of all participants, the District does not maintain the assets on its balance sheet.

NOTE 13 - OTHER POSTEMPLOYMENT BENEFITS

The District is required to offer employees, who are IMRF vested, continued health insurance participation upon termination of employment. The departing employee pays the entire health insurance premium and therefore there is no explicit subsidy. The District is a participant of Library Insurance Management and Risk Control Combination (LIMRiCC), a community-rated health insurance plan and as such, it is the District's opinion that there is no implicit subsidy as defined by Government Accounting Standards Board (GASB) Statement No. 75.

Notes to Financial Statements June 30, 2024

NOTE 14 - FUND BALANCES

Classifications

Amounts for specific purposes by fund and fund balance classifications for the year ended June 30, 2024 are as follows:

Classification/Fund	Purpose	Amount				
Nonspendable:						
Insurance fund	Prepaid insurance	\$	13,554			
Total nonspendable			13,554			
Restricted:						
Debt service fund	Debt service costs		563,474

Unassigned:						
General fund		2	,358,445			
Unemployment compensation fund			(269)			
Total unassigned		2	,358,176			
Total fund balance		\$ 3	,975,958			

NOTE 15 - RESTRICTED NET POSITION

Restricted net position represents net position whose use is subject to constraints that are either: (1) externally imposed by creditors, grantors, or laws or regulations of other governments, or (2) imposed by law through constitutional provisions or enabling legislation.

Notes to Financial Statements June 30, 2024

NOTE 15 - RESTRICTED NET POSITION (Continued)

Restricted net position at June 30, 2024 is \$866,007 in the Statement of Net Position. \$216,468 of this sum represents the amount of previous property tax money collected under the Working Cash Fund for the sole purpose of enabling the District to have in its funds, at all times, sufficient money to meet demands for ordinary, necessary and committed expenditures for library purposes. Principal of the Working Cash Fund may be transferred to the General Fund in anticipation of the collection of taxes lawfully levied for general library purposes. These taxes, when collected, shall be drawn upon to reimburse the Working Cash Fund. The remaining \$649,539 represents funds remaining from separate dedicated tax levies that can only be used for the specific purpose for which they were levied. Those levies were deposited in the Debt Service Fund and in the following special revenue funds: Social Security Fund, IMRF Fund, Audit Fund, Liability and Workers' Compensation Insurance Fund, and Building Sites Fund.

NOTE 16 - SUBSEQUENT EVENT

Management evaluated subsequent events through October 14, 2024, the date the financial statements were available to be issued.
